

In English, this half term we will be exploring several books with the theme of 'Journeys'.

Based on these we will be writing

- A portal story
- A winter poem

# A Journey To Christmas

We will be dreaming big on our trip to KIDZANIA!

French: We will be learning to identify objects in the classroom, name colours, say how old we are, and listen to and repeat classroom instructions.

In geography, we will be continuing with our local study of Purbrook. We will also consider how it has changed over time.

In Science, we will consider light sources. We will explore through a number of experiments what happens when light hits different materials.

In Maths we will be building on our learning about the number system and place value from last half term. Our key learning will be about:

- Applying learning to problem solving contexts
- Adding and subtraction of different measures
- Securing an efficient method for addition and subtraction of numbers with up to 3 digits.
- Fractions

We will be putting together a fun filled nativity performance. Alongside the traditional nativity story, will be an all singing, all dancing extravaganza.

In RE, we will study Mary as a holy person in the Christian religion.

In Computing this term, we will learn how to effectively use a search engine using precise, key words.

Please continue to support your child through their home learning by reading five times a week, practising spellings daily and also visiting TTRockstars to practise the times tables.
